Alma Mater

A song, a song of gladness,
A song of praise and cheer,
We sing with hearts rejoicing
To our Alma Mater dear.
With hearts so true and loyal,
Our highest tributes bring;
To you we'll e'er be faithful,
To you we'll always sing.

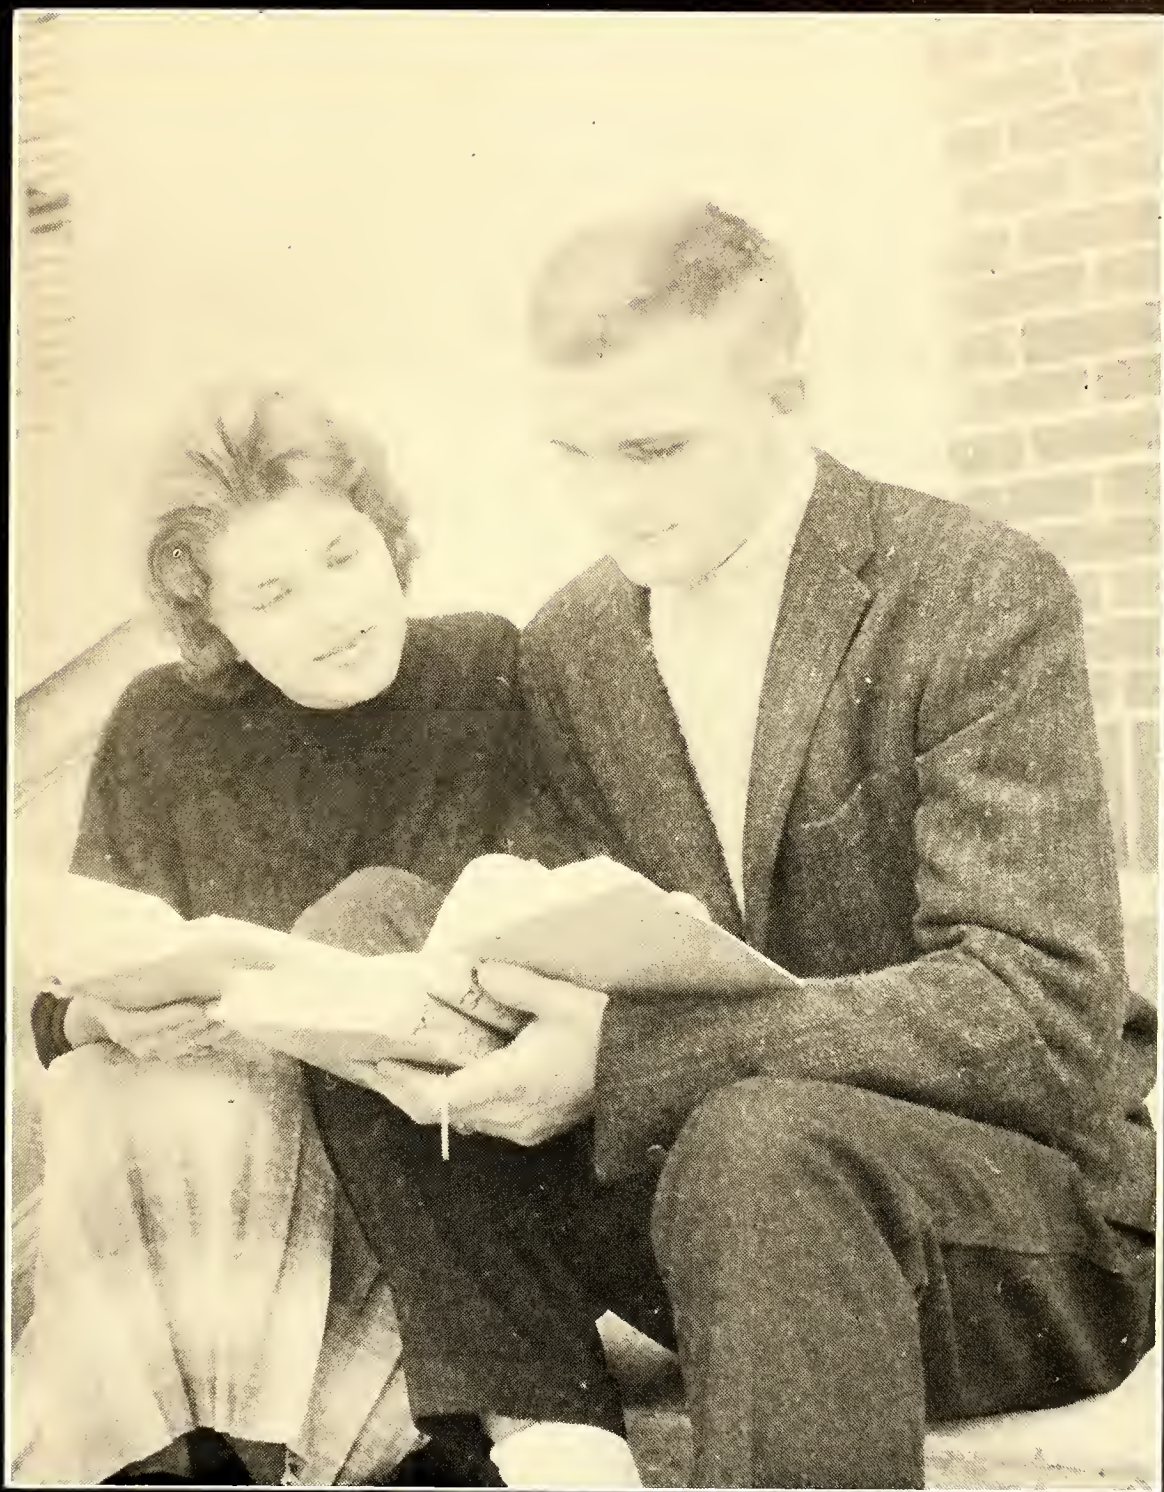

Oh, may our Alma Mater ever,
In culture, pow'r, and might,
Move on in ev'ry feature,
Of the honor we know right.
And may the love that binds us
Protect what e'er we do,
While thoughts always noble
Inspire and keep us true.

Chorus:

Alma Mater, we love thee;
Our hearts are sincere and true.
Alma Mater, we love thee
With a love, a love that is ever new.
Your ideals that we cherish,
Inspire us to heights unknown,
Alma Mater, we love thee,
We go on and on and on.

Class History

Freshmen, just four years ago. So proud to be in high school. There were seventy-seven of us: thirty-seven boys and forty girls. Our officers were as follows: Gurney Hood, president, Kenneth Mozingo, vice president, Brenda Barger, secretary, and Carol Hewett, treasurer.

The next year we were the loud sophomores of Burgaw High. Our class officers that year were Horace Murray, Carol Hewett, Annette Blackmore, Gayle Newkirk, and Gurney Hood.

Fifty-five students returned for our junior year, which was filled with excitement. Sidney Balcombe, Gregg Futch, Gurney Hood, Horace Murray, and Ross Trawick represented our class on the football team. Gayle Newkirk, Barbara Tokoly, Hattie Mae Hall, Mary Nette Sisson, and Joyce Murray were on the basketball team. Cheerleaders were Mary Ann Wolfe, Paula Williams, Carolyn Durner, and Edith Ann Mallard was head cheerleader. The People versus Maxine Lowe, our junior play, was a big success. "Mardi Gras" was the theme for the Junior-Senior banquet. We all worked hard to make it a success and our time was not wasted. Horace Murray, Kenneth Mozingo, Annette Blackmore, Jeanette Saunders and Betty Lou Raynor were our class officers.

Then the proud Seniors of '59. Forty-six students came back to enjoy our last and happiest year of high school. The Beta Club members from our class were Gayle Newkirk, Linda Sherman, Nat Wells, Edith Ann Mallard, Scarlett Johnson, Linda Paluck, Betty Raynor, Horace Murray, Kenneth Mozingo, Annette Blackmore, and Elizabeth Bloodworth. Our Homecoming Queen was Carolyn Durner; Paula Williams, Brenda Barger, and Mary Ann Wolfe were her attendants. Senior class officers were Linda Sherman, Kenneth Mozingo, Annette Blackmore, Carol Hewett, and Barbara Burton.

We have all enjoyed these four happy years together. They will always be remembered and cherished in our hearts. To you -- Burgaw High School -- we give our thanks.

Class Prophecy

TIME: 1973

PLACE: PLANET EARTH

Purpose: Prepare for blast-off to Mars on a special mission for Mrs. McCullen and Mrs. Futch, looking for the lost class of '59 -- not because they are interested in finding out where it is, but because they want to know if any of them have died and not remembered them in their wills.

Aboard the super-sonic rocket ship, we find two of the lost class, Linda Sherman and Paula Williams, who are the special investigators for the two teachers. Our stewardess, who is the charming Miss Sandra Crews, is taking her first outer space trip since becoming the ship's hostess early this spring. Our pilot is the very capable classmate, William Robert (Bobby) Bell, and his assistant is a professor who is going along on the trip because the ship is using the first set of glass pac mufflers that he invented. He is now known as Professor Froggy, but we knew him as Detrea Henderson.

The first planet we reach is Pluto. There we find Sonny Langston, drumming away to his heart's content, while the soloist, Edith Ann Mallard, practices her vocal number for tonight's performance at the Miss Universe Pagant on Saturn. Her partner for the duets will be Gregg ("High Note") Futch. Seems as though this was the only place they could find to put these noise-makers.

Across the way, we see Harvel Horrell, who says that this time he's sure that it isn't his imagination; he sees two moons. Also Teddy Karwoski, who says that the only regrets he has are that he had to be the boy to make the universe go wild. Oh, well, it's just one of those things. Jupiter must affect people that way. We haven't time to stick around and see.

Upon a throne sits a lovely young black-haired miss whom we knew for her beauty on earth. Carol Hewett has just been crowned Miss Universe for 1974. As she walks down the long runway to view her subjects, "High Note" and Miss Mallard sing the "Miss Universe Song" to her. We must agree with the judges, Joyce Ann Murray and Barbara Tokoly, that they couldn't have picked a more beautiful girl.

The planet Mars yielded some mighty fantastic sights to us when we were viewing it in school through the telescope, but what about the ones who are looking at it now. Gurney (Grass) Hood, as a modern "Johnny Appleseed", is growing his special grass, NO-END-TO-IT, all along the canals of this planet.

Always wanting to be riding in the latest, these three cats are doing just that now. Louise Wallace, Barbara Burton, and Jeannette Saunders are sporting the latest planetary patrol cars, which have been painted a dashing, Mercury red. Hope they don't pay too much attention to the car, but try to concentrate on their job of keeping air traffic straight. Ohhhhhh, that car just barely missed us. Please! Get to work, girls.

Meanwhile, on the Planet Neptune, we find Jack Brinson working with three loyal ladies of his church. They are none other than Bebe Bloodworth, Mary Nette Sisson, and Ethel Jane Lanier. These ladies are certainly taking their upbringing to heart and are trying to improve all the "poor lost souls" of our solar system. Their project for the year is WARM CLOTHES FOR PLUTO (THE DOG)!

Class Prophecy

On earth, we find two young ladies in the midst of setting up housekeeping. Remember the diamonds and the wedding bands? They belonged to Brenda Barger and Betty Lou Raynor, who are now settled young ladies. The former is now known as Mrs. William Eave Bostic, and the latter is now Mrs. Ned Ash. We wish you two all the happiness in the world.

It couldn't be done, but it was! Horace Murray and Jennings Humphrey were the first ones to see the other side of the moon. It seems only fair that two who have mooned over two Junior girls should be the first to do so.

She can't even take a vacation without things running wild. We're speaking of the supervisor of the planetary system between Pluto and Neptune; Linda Paluck. Every time she leaves, her employees have a party. These girls could be none other than the fantastic four: Carolyn Durner, Annette Blackmore, Frances Allred, and Mary Ann Wolfe. Leave something standing when ya'll get through.

On the sun are three geniuses who are tri-owners of the T-V station, MIL-RO-B. These three are using the heat from the sun to generate the power needed for a station to reach planets so far away. They are none other than Benny Wells, Milton Wells, and Ross Trawick.

And who else should discover the new planet that is still un-named but those two who have the curiosity: Gayle Newkirk and Hattie Mae Hall. They never did seem to be able to keep away from anything they didn't know all about. That curiosity is going to kill somebody yet.

The latest news to come to us by way of short-wave radio is that of a new uranium mine and plant on Mercury, which is owned by one of the richest men in the world, Tracey James. Mr. James is ably assisted by his two secretaries, who have been with him since he first opened the mine. They are Scarlett Johnson and Mickey Wells. Since Mr. James has become so wealthy, he has hired a manager, Nat Wells, a former classmate of his.

An ingenious scientist, who was known for his scientific work in high school, is now one of the renowned scientists who are making some very important experiments having to do with energy from the sun. He is none other than Kenneth Mozingo. Carolyn Ramsey is Mr. Mozingo's very able assistant. Together they are giving the world some of its most important discoveries.

Not to be forgotten is our funny man, one who was known for his sarcastic remarks in the classroom and who has let these remarks turn into money for him, Carol Gene Wood. His partner is that "straight woman," Miss Long Face, who is better known as Betty Jean Price.

Well, here they are, Mrs. McCullen and Mrs. Futch. They're all living, so I believe that means that there isn't anything due either of you except thanks for helping make us so rich and important. Our trip has been most enjoyable, Mr. Pilot. Thanks again for the ride. Come to visit us on earth one day when you're around.

F.H.A. CREED

We are the Future Homemakers of America
 We face the future with warm courage,
 And high hope.

For we have the clear consciousness of seeking
 Old and precious values,
 For we are the builders of homes,
 Homes for America's future.
 Homes where living will be the expression of everything
 That is good and fair.
 Homes where truth and love and security and faith
 Will be realities, not dreams.

We are the Future Homemakers of America
 We face the future with warm courage
 And high hope.

FIGHT SONG

Oh, when those Burgaw Red Devils fall in line,
 We're gonna win that game another time;
 We're gonna fight, fight, fight for victory,
 And let our names go down in football history;
 And everywhere you'll go you'll hear the name
 Of all the Burgaw High School football fame
 So come on team, let's win the game, win the game,
 Rah, Rah, Rah!

Light travels 186,000 miles a second or once and two third
as fast as gossip around B.H.S.

What kind of Arithmetic is this?

Doesn't exactly make sense, we'll have to admit. But neither do some of the present tax laws.

For instance, a strange twist in federal law lets several million American people and businesses escape paying all the taxes in *their* electric bills that you pay in yours. More than 23¢ out of every dollar you pay for electricity goes for taxes—but members of this "privileged class" pay only a small fraction of that. The reason: They get their electricity from federal government electric systems that you help support.

Most Americans think everyone should pay his fair share of taxes. How do *you* feel about it?
